QUALITY, RESEARCH & SCALE AT A GLANCE

72h → 1h

Onboarding Latency

AAA integration cut from 3 days to 1h

>90%

Launch Usability

Positive user rating in debut site UX post-mortems

>90% CTR

Search Discovery

Card sort IA optimized organic search

350M+

Live Player Scale

Daily LiveOps enabled by UGS adoption

PRODUCT EXPERIENCE & USABILITY COMPETENCIES

PX & USABILITY TESTING

Experiential Quality Standards (PX)
Heuristic Evaluation & Audits
Lab Usability Protocols & Interviews
Player Mental Model Mapping

RESEARCH & METHODOLOGIES

Eye-Tracking & Heatmaps (TTFF)
Open/Closed Card Sorts (OptimalSort)
ANOVA Statistical Matrix Analysis
Counterbalanced A/B Testing

PRODUCT & LIVE ARCHITECTURE

Systems-Level Live Service Design
Direct Event Binding Solutions
Information Architecture (Neo4j/SKOS)
Cross-Platform Parity (Switch to PC)

PROFESSIONAL EXPERIENCE

Founder & CTO — Chuckanut Games

03/2025 – Present

- Directing live-service Unreal Engine architectures and PX pipelines for interactive marketing partners.
- Scaling technical publishing standards and developer ecosystems, cutting client engine onboarding latency from 72h to 1h.
- Designing automated production frameworks integrating AI tooling into active developer and QVS verification cycles.

Education & Learning Director — Epic Games

2023 – 03/2025

- Formed, grew, and directed an internal learning studio shipping playable game experiences to showcase AAA production standards.
- Eliminated cross-surface friction across Launcher, Web, and Engine, unifying docs to power the Epic Developer Assistant.
- Governed cross-functional technical onboarding partnerships for tier-one brands including Disney, LEGO, and Paramount.

Game Director — Epic Games (Talisman)

2023 – 2024

- Directed a cross-discipline studio team shipping a benchmark UEFN tech demo showcasing MetaHumans and real environments.
- Engineered experiential quality pipelines, standardizing visual parity and frame budgets from Nintendo Switch to high-end PCs.
- Shipped a comprehensive creator ecosystem, releasing playable demos, modular templates, and dynamic cloth systems.

Education & Learning Lead — Epic Games (Fortnite Ecosystem)

2021 – 2023

- Architected Direct Event Binding, eliminating channel complexity to resolve core creator friction and unlock new game modes.
- Secured >90% positive usability ratings in UX post-mortems for launch-day tools across Fortnite Creative, UEFN, and Verse debuts.
- Applied formal verification (TLA+) to validate concurrency algorithms in Verse, ensuring stability under peak concurrent player loads.

Senior Technical Writer & Information Architect — Epic Games

2016 – 2021

- Led 140-participant OptimalSort card sorts and ANOVA analyses, leveraging similarity matrices to restructure engine IA.
- Conducted eye-tracking lab studies (TTFF, fixation heatmaps), resolving sidebar cognitive overload and landing page discoverability.
- Modeled developer workflows across 100+ senior engineers using Neo4j/SKOS, and co-authored whitepaper on Fortnite live-service pipelines.

CERTIFICATIONS & ATHLETIC BACKGROUND

Certificate in Sports Entrepreneurship Program — Barça Innovation Hub

2026–2027

Certificate in Fan Engagement — Barça Innovation Hub

2026–2027

Competitive Collegiate Fútbol — Berea College (NAIA / KAC Conference Midfielder)

1999–2002

EDUCATION

B.Sc. in Computer Science in Real-Time Interactive Simulation — DigiPen Institute of Technology

Graduated 12/2016

B.Sc. in Technology Management — Berea College

Graduated 12/2002
